Re: Notice of Ex Parte Presentation, GN Docket No. 00-185, CS Docket No. 02-52

Dear Ms. Dortch:

On June 19, 2003, the Alliance of Local Organizations Against Preemption (ALOAP) met with John Wong, John Kiefer, Priscilla Lee, Kyle Dixon, Peggy Greene and Alison Greenwald, all of the Mass Media Bureau. Mr. Andrew Afflerbach of Columbia Telecommunications Consulting accompanied the undersigned for this meeting.

The issues discussed at this meeting were restricted to the engineering and burden issues on public rights of way. The genesis of the discussion relates to the report entitled Impact of Cable Modem Services on Public Rights of Way, Tab C1 and C2, as filed with the Commission in the ex parte notice made on January 3, 2003. Interested parties may refer to the ALOAP ex parte of January 3, 2003 for copies of the above captioned report. The only new information presented was the photograph below, used only as an example of the type of equipment presently located in the rights of way. That photograph was taken by the undersigned on June 20, 2003 and the structure evidenced within the photo is located on Dodson Street in Annandale, Virginia between the properties numbered 5023 and 5025. The identifying number on the pole in the photograph appears to be 5534S.

Ms. Marlene Dortch, Secretary
